Subject: Sediment sampling and QAPP progress

Ryan/Branden,

Hey guys, do you have about 30 minutes tomorrow Tom and I can go over what samples have been collected, some that likely cannot and others that may be more appropriate to collect? Tom has details from yesterday's fieldwork that he can provide through adobe with photos and mapped locations to help in the discussion. Also wanted to brief you on a couple of changes to the QAPP and get your input before proceeding with any of them (and QAPP revision). Awful short notice I know, and my apologies to both of you. Just wanted to get any additional samples needed pulled right away.

Thanks,

Bradley Vann - Remedial Project Manager
